

# **\*BTS Member ALERT\***

---

It has come to the attention of the Union that there have been members around Ontario that have had overtime hours worked converted back to regular time. This has happened usually when an employee comes into work for overtime on a scheduled DOR near the beginning of the week. Overtime for Fulltime employees is tracked and paid on the day it is worked.

For part-time employees it's important to make sure when you are force assigned an overtime shift on a DOR prior to completing a 40 hour week. This time would be paid at the overtime rate.

For these reason we advise members to check all of their pay stubs for the 2019 year, to ensure that your overtime has been tracked and that you have been paid correctly. Additionally it is recommended that you check your pay stubs actively every pay period.

If you find what you believe to be identifiable errors in how you were paid and or concerns on the tracking of your overtime, contact your manager to have the issue resolved.

If you are unsuccessful in having the issue resolved, you are advised to contact a Steward.
